For Example 2

If you fill in the blanks correctly in any item below, you will discover a word or phrase that is an example of a category represented by the letters omitted. To discover that category, simply arrange those letters in the proper order. In the example, the letters T, I, C, and Y have been left out of UTICA, NEW YORK. Those letters, anagrammed, spell CITY, a category to which Utica, NY, obviously belongs. Answers on p. 3.
